

D500 Drop Hammer_

- ▶ The D500 Drop Hammer manufactured in the UK by GP Services was designed to install a range of high performance mini piles using dynamic energy techniques, and for pneumatic soil displacement systems from 100mm diameter up to 300mm.
- ▶ The Drop Hammer features extending rubber tracks that increase the width of the unit, also hydraulic outrigger jacks improve stability whilst in use on uneven site conditions.
- ▶ All of the D500 drop hammers available have an extending mast that allows the use of longer drop weights.

Weights and Dimensions

Transport/ Tracking Height	1700mm
Transport/ Tracking Width	1400mm
Transport/ Tracking Length	5500mm
Rig Access Width	700mm
Rig Access Length	5000mm
Operating Height	3000mm

Specifications

Max Hammer Weight Capacity	500 kg
Winch Capacity	2000kg
Drive Track	Rubber
Typical Noise level @ 2m	106 dB
Engine	30 HP Diesel
